INTRODUCTION

Thank you for considering MDN as your next career move. This document will provide you with an overview of who we are, what we do, and the exciting opportunities available at our organisation. We believe in fostering a diverse and inclusive workplace where every team member can thrive and contribute meaningfully. Read on to discover what it means to be part of MDN and learn how you can make a difference with us

WHO WE ARE

The Men's Development Network (MDN) is an Irish non-profit organisation headquartered in Waterford City, with a key focus on promoting change and equality across society. MDN engages men and boys on their health, wellbeing, gender equality, and the prevention of gender-based violence.

MDN fosters healthy masculinity and creates environments where men can thrive. We empower men to take control of their lives and make positive choices through various programmes, initiatives, and community-based projects. One of our primary areas of focus is men's mental health. Recognising the barriers men face when seeking support, MDN creates safe spaces where men can discuss their mental health challenges openly. Through training, workshops, and counselling services, we equip men with the tools needed to manage their well-being effectively.

We also address relationship difficulties and social isolation through the MEND (Men Ending Domestic Abuse) programme. This initiative works with men who have been violent or abusive in their intimate relationships, aiming to promote positive change for the safety and welfare of women and children.

In collaboration with schools and higher education institutions, MDN implements prevention and early intervention programs aimed at young men. These include our White Ribbon Training Programmes, which promote healthy coping mechanisms, positive communication, and emotional literacy.

Through the Male Advice Line (MAL), MDN provides confidential support to male victims of domestic violence and abuse, available seven days a week. The MAL is a lifeline for many, offering essential support, advocacy, and information.

MDN influences policy on men's issues at local, regional, national, and international levels and has a strong record of multi-agency collaboration. By addressing mental health, relationship difficulties, social isolation, and engaging with young men, MDN plays a crucial role in supporting men's overall health and fostering positive change.
